**Re: Notice of Violation Withdraw  
Compliance Evaluation Inspection  
August 10-11, 2015  
EPA ID No. WVD981034101**

**Docket Number: R3-16-NOV-RCRA-006**

Dear Mr. Johnson,

On December 8, 2015, the U.S. Environmental Protection Agency, Region III ("EPA") issued a Notice of Violation ("NOV") to Safety Kleen Systems, Inc. (the Facility) located in Wheeling West Virginia in regards to the Compliance Evaluation Inspection ("CEI") that occurred on August 10-11, 2015. The NOV addressed an incomplete Preparedness, Prevention, and Contingency Plan ("CP").

Upon receiving and reviewing documentation you sent on December 10, 2015 by email it has been determined that The Facility was not in violation of the CP provisions at the time of inspection. The documentation showed a list of all emergency equipment at the facility and provide the location as well as the physical description of each item along with a brief description of its capabilities. The Facility's CP was updated in November of 2013 and contained all required elements of 40 CFR 265 Subpart D at that time.

Thank you for following up with the EPA in a timely manner after receiving the NOV and providing documentation regarding the Facility's CP. The EPA is hereby withdrawing NOV: R3-16-NOV-RCRA-006.
